#### Sale or Trade

Horses for Sale, or will trade for Cattle. Prices right.  
O. D. HARRINGTON  
Big Stone, Alta

#### Breezelets

The Germans propose to have new version of "Watch on the Rhine."

They will be able to sing "Watch the Allies on the Rhine"

Calgary Herald: "Gas is an essential factor in the operation of a newspaper."

"Sure. Newspapers cannot be run without a plentiful supply of gas—in fact, some are all gas."

"Look for foot and mouth disease," is the heading of an article.

Come to think of it, quite a number "put their foot and mouth in it" during the last session of provincial legislature.

"Teach your hens to respond to a call," says a news heading.

Well, yes. Most of them do respond to the "Last call for dinner," about November and December.

"Hints to remember in purchasing a car," is the heading of an article by an auto expert.

From the seller's viewpoint the principal thing for the purchaser to remember is a good big fat pocket book.

"Motor transport expansion held back by roads," says a writer

And no one knows the truth of that statement better than the chauffeur who has run his auto into a bed of gumbo clay.

"Milk has wonderful absorption power," is the heading of an article in Monday's Calgary Herald

Yes, to be sure it has. It is wonderful how it absorbs water.

W. M. Davidson, M.L.A. for North Calgary, endeavored to explain the difference between Liberal and Conservative parties in the legislature at a meeting in the Forum last Sunday.

A great many people are of the opinion that there is no difference when one or the other is in power—the one in power has the best show.

"The star witness (Tanley) in Tom Turner case cannot be found"

It looks like a total eclipse of the star.

German envoys objecting to any restrictions.

But have no objections in bosing the peace conference.

#### IMPORTANT RESOLUTIONS

At the last meeting of the village council (minutes of which will be found in another column) two very important resolutions were passed, which are of interest to the village.

The first of these resolutions refers to the brick chimney by-law. Soon after the village was incorporated, as a protection against fire, a by-law was passed compelling brick chimneys to be built on all buildings where stoves, furnaces, &c. were used. The scope of the by-law, however, was confined to blocks one and two, and those outside these two blocks were allowed to have stove pipe chimneys. Since that time Chinook has grown so rapidly and thickly populated that the "old stove pipe chimney" has become a great menace to the safety of the whole village. The brick chimney by-law has now been so amended as to bring every building where stoves, &c. are used, within the Chinook townsite, under the provisions of the by-law. It has become very necessary, as a very disastrous fire might break out suddenly from an over heated or defective stove pipe chimney, which have been the causes of a very large percentage of fires in the past. Every moment of time an over-heated and defective chimney is a positive menace to public safety of both property and life. Read the village council's warning in another column.

The second resolution relates to a business tax. As at present constituted, all expenses in connection with improvements required in the village fall upon those who may own more or less property in town. Previous councils have felt that those doing business in town—not being tax-payers—should not only share in the privilege afforded in village, but should also have the opportunity of contributing towards the upkeep of the village and a voice in its management, by adding their names on the assessment roll as ratepayers, but nothing was done. But the time has come when a considerable increase of money will be required to carry out Chinook's reconstruction work for 1919 and the years to follow. Among other very necessary requirements needed are better roads, more sidewalks, a vastly better fire protection system, and a different and a more up-to-date water supply, both for domestic and fire protection purposes. All this will require a larger increase in local taxation. One way the council look upon to get some of this increase is a business tax on all businesses whose owners are doing business in the village. A keener interest in the public affairs of the village and its improvements will be felt by all.

#### CHINOOK BREEZES

The Chums Class of the Chinook consolidated school will hold a sale of plants and flowers on Saturday, May 10th.

The annual meeting of the Laughlin branch of the Red Cross society will be held at the home of Mrs. J. N. Gregg on Saturday, May 17th, at 2 30 p.m.

The largest event of the season will take place on Friday, May 16th, when the Younger Set Club will hold a big hard-time masquerade ball in Arm's hall. This is something entirely new. Don't miss it. See bills for further particulars.

"Shall we fight or foster Bolshevism?" will be the subject of an address to be given by Mr. Jas. Pettigrew at the regular monthly meeting of the Chinook Local of the U.F.A. to be held in the consolidated school, on Saturday evening, May 17th, at 8.30 sharp.

The following returned veterans from overseas were in town this week: Pte. Kay, 10th batt.; Signaler Maynard, 5th batt.; Sgt. R. J. McLean, machine gun batt. (these two recruited with the 175th batt.) Pte. Morley, brother of Mrs. W. H. Short; and Pte. Harris, 8th railway batt., and Mrs. Harris.

#### A CASE OF LOCAL INTEREST

Gannaw vs. Urch. Application by W. C. Robinson (Youngstown) for plaintiff, for an order for possession of farm lands by way of originating notice. L. E. Ormond (Chinook), for defendant, opposed. By consent, matter was disposed of in the following manner: Plaintiff to have possession forthwith of the half-section in question, plaintiff to put same in crop and do all the work. Defendant to have one-quarter of crop and pay one-quarter of threshing and twine. Plaintiff also to be paid for any work necessary to put the land in proper shape for crop this spring. Defendant to be credited on lien note for \$316.50 for work done on said lands, and to execute quit claim to plaintiff at the end of season.

#### START NOW

Boys and girls, kill gophers. The agricultural society is giving special prizes for gopher tails.

According to a report issued by the Minister of Agriculture, Alberta, there are approximately 10,000,000 acres broken in the province. In 1919 there were 7,727,792 acres under crop, as compared with 1,242,444 acres in 1909, or over six times as much in 1919 as in 1909. In 1919, 2,141 homesteads were granted, 15 pre-emptions, 6 homesteads purchased, and 421 soldier grants

#### VILLAGE COUNCIL

Minutes of the meeting of the above council held April 24th.

Correspondence read and ordered filed.

Minutes read and adopted. Following bills were paid:

C. Wylie 10.20  
Chinook garage 81.45

Boyer—Robinson, that the Reeve interview M. L. Chapman re acting as poundkeeper for 1919.

Robinson—That By-Law No. 7, as amended at the last regular meeting, be published in the local paper, and also written on the village bill-boards.

Robinson—Boyer, that the Secretary write S. F. Meade, giving all necessary explanation re the settlement of his account with J. A. Maxwell.

Boyer—Robinson—that the business tax for 1919 be reckoned at the rate of 8% of the rental value of the premises in which the business is being conducted. Adjourned.

## MOTHERS!

Watch your children's skin. As soon as you see the slightest trace of a rash or sore, apply Zam-Buk. This antiseptic balm will protect the sore places from infection, prevent it from spreading and healing soon follows.

Careful mothers always keep Zam-Buk on hand for their children's injuries. It ends pain so quickly and prevents any possibility of festering. Best for cuts, burns, scalds, bruises, ringworm, scalp sores, eczema and teething rash. All dealers 50c box.

# Zam-Buk

## EDITORIAL

### Canadian Citizenship

A problem which has long confronted Canada, and which it has been the aim of all governments, Dominion and Provincial, for the past quarter of a century and more to solve, has been how to secure and retain population. Governments in the past have, unfortunately, devoted more attention and spent more money in endeavoring to secure population than they have to retaining that population when secured, and more particularly to retaining in Canada our own Canadian born.

With enormous unsettled tracts of land only awaiting settlement to become productive and wealth-producing, the Dominion government adopted a free homestead policy, created a most extensive immigration department, and spent millions in advertising and other propaganda to induce people in all countries to come to Canada. For years these efforts met with little success, and the recurring decennial censuses revealed the fact that Canada was not even retaining its own natural growth in population.

Naturally, but nevertheless unwise, governments at Ottawa and in some of the provinces, both Liberal and Conservative, in their efforts to secure immigrants neglected to exercise care in the matter of quality of new Canadian citizens and devoted their energies to obtaining quantity. This led to the granting of exceptional privileges to various sects and groups of people, and conferring upon them exemptions from the discharge of national duties which all British and Canadian born subjects were called upon to fulfill. Extensive military service was granted; special privileges in regard to language, education, and peculiar religious beliefs and other national customs were freely given, and the right to live in isolated communities apart from other citizens was not only admitted, but even encouraged.

As a result of these policies, Canada has received thousands of people who claim; and have a legal and treaty right to claim, special rights and privileges which are denied to Canadian born citizens. Even before the Great War thoughtful Canadians, anxious about the future welfare of their country, were becoming seriously alarmed over the resultant situation, and it only took the Great War, with all it demanded of patriotism, sacrifice and service on the part of Canada and its people, to arouse the whole nation to the danger which threatened its future if these policies were persisted in and Canada became the home of numerous and even increasing groups of unassimilated races adhering strictly to the language, customs, passions and prejudices they brought with them from foreign lands.

It is no use merely lamenting over the mistakes of the past. At the time these policies were adopted and put into effect they were approved by parliament and a majority of the Canadian people. Now it is right to blame these non-British born people,

Canada invited them to come here, and of her own free will granted them special rights and privileges in the event of their coming. As the nation we must honorably live up to the agreements we then made and the pledges we gave.

But all such agreements and undertakings should be terminated forthwith, and should not apply to any future immigration to this country. From this time onward Canada's policy should be absolutely against granting special privileges on conferring special rights on any individual or class of individuals. "Special privileges to none" must be our watchword. All Canadian citizens should enjoy equal rights and equal privileges, and should be called upon to assume equal responsibilities; there should be no exceptions. Furthermore, all residents of Canada should, while they are residents of this country, be Canadians pure and simple and nothing else, without special privileges, exemptions or favors of any kind.

Every resident of Canada, whether he be Canadian or British born, or of alien birth, should be expected and required to render full and loyal service to Canada at all times, in the emergency of war as well as during the happy times of peace. At the same time all present alien residents who are loyal and sympathetic to Canada and law-abiding citizens should be treated as Canadians. Because of their nationality they should not be treated harshly or unjustly. And the loyal, sympathetic law-abiding among these people constitute, without question, the vast majority of their number. But those who are disloyal, whether aliens or British and Canadian born, should be deported or forced to be law-abiding.

Any immigrant to Canada who is unswerving on entry to take an oath that he subscribes without reservation to all the obligations of Canadian citizenship as they may be determined from time to time by the proper authorities, and that he asks for no special consideration by reason of his language, his religious faith or his national customs, or who entertains any belief or renders allegiance to any foreign potentate or organization or is bound in any manner whatsoever to disregard the law of Canada, should be denied admission to Canada.

Canada still needs and must have population. We need quantity, it is true, but above all we must have quality, and if we cannot have quality with quantity then quantity must be sacrificed. Canada can better afford to wait than make the mistake of filling up her unsettled areas with people who are not willing to become real, out-and-out Canadians. Canadian citizenship must be a prize to attain and value; not something to be given away at bargain counter rates in order to secure immigration. The mistakes of the past must never be repeated.

**Colds Cause Grip and Influenza**  
LAXATIVE BROMO QUININE Tablets remove the cause. There is no "Bromo Quinine" in E. W. GROVE'S signature on the box. 30c.

**Egged Him On**  
"His friends all advised him to go on the stage," said the unsuccessful tragedian's father.

"Yes, I see it now. It was his friends egged him on and the audience egged him off."

**Minard's Liniment Cures Burns, etc.**

**Constabulary in Vancouver**  
Vancouver, B.C. — For the first time in the history of the force, the Royal Northwest Mounted Police are to be represented by a detachment in British Columbia. Premises have been secured for use as stables and barracks. The headquarters of the British Columbia detachment of probably 450 men will be in Vancouver. Hitherto the famous force has been confined to the three prairie provinces of Manitoba, Saskatchewan and Alberta. Major Fitzhugh is in command in this province.

### Huns Observe Easter

Berlin. — The Easter holidays apparently brought to most of Germany what countless appeals to patriotism and warnings against strikes have failed to accomplish—comparative quiet and order. The nation spent its first real holiday since the revolution in November in peaceful pro-war occupations and recreations. There were no reports of any disturbances in any district except in Bavaria.

No man or woman should hobble about because of corns when so certain a relief is at hand as Holloway's Corn Cure.

### All-Electrical Manufacture

Great Britain Fully Equipped To Meet All Requirements

A great deal used to be said about the dependence of the British electrical industry on German and other foreign sources of supply, but most of what was alleged about the backwardness of British production was inaccurate. Britain was by no means the only country in which the Germans had managed to secure a foothold in certain "key industries," and the electrical manufacturers of Great Britain deserve far more credit than has ever been given them for the way in which they managed to keep on producing almost every class of electrical plant and apparatus in spite of German mining and gas attacks. The ministry of reconstruction recently formed an engineering trades (new industries) committee to investigate the production of goods either in small or insufficient quantities. This committee had an electrical branch committee, and in the report of the latter we naturally find mention of all the articles alleged to be "captured" by the Germans. About sixty different kinds of articles were considered, but the branch committee reported that in the majority of cases they do not come within the scope of their reference. With few exceptions, they report "ample manufacturing facilities undoubtedly exist, and in many cases, existing before the war, for meeting the whole requirements of the United Kingdom and the colonies and, in certain cases, of taking care of the export trade to other countries." The legend of "dependence on German enterprise"—so sedulously fostered by German agents—arose out of the fact that existing British manufacturing facilities were not fully employed. Under the new regime, with the British electrical manufacturers organized in powerful combinations and working together in energetic associations for research and commercial progress, we shall hear no more of the legend.

The few goods which existed as in certain insulating materials, electric glassware and porcelain and so on, have either been closed or are about to be closed. British electrical manufacturers are now fully equipped to supply, in any part of the world, any electrical demand from a complete electric power undertaking or railway system to a pocket lamp.

**Revert to Old Hours**  
Regina, Sask. — Word was received by the Regina banks in the form of a circular letter that on and after May 12 all banks will revert to the office hours in effect before June 1, 1918, viz.: 10 a.m. to 3 p.m., and on Saturdays from 10 a.m. to 12.

**An Oil for All Men.**—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it has no equal. Therefore, it should have a place in all home medicines and those taken on a journey.

**Boys' and Girls' Clubs**  
J. G. Rayner, director of boys' and girls' clubs at the University of Saskatchewan, reports a great deal of interest taken in the formation of boys' and girls' clubs in different parts of the province. There are now nearly 3,000 boys and girls enrolled in the province and new clubs are being formed nearly every week. There will be four contests this year, pig raising, poultry raising, potato growing, gardening and canning. Only boys and girls of the ages of ten to fifteen are enrolled, this taking in a larger number of boys and girls who have left school.

The British flag is the first standard of a Christian nation to float over Constantinople as that of a conqueror.

Philosophers take things as they come, but rag pickers and pickpockets take as they go.

**Mongol Independence**  
Tokio. — Two leaders of the Mongolian independence party have arrived in Tokio to begin a movement of "Dr. politics" and propaganda of Mongolia and Manchuria. It is proposed to unite these two Chinese provinces in one state.

### RHEUMATISM CAN BE CURED

The Trouble is Rooted in the Blood and Can Only Be Cured Through the Blood.

In the days of our grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. Those days there were thousands of rheumatic cripples. Now medical science understands that rheumatism is a disease of the blood and that with good, rich, red blood any man or woman of any age can defy the trouble. Rheumatism can be cured by killing the poison in the blood which causes it. For this purpose the blood must be enriched. Good qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. In proof of this, Miss Jennie Stockdale, Hall's Bridge, Ont., says: "Two winters ago I was taken with a bad attack of rheumatism, and was in bed for over two months, most of which time I could not sleep or enjoy rest day or night. The trouble also affected my nerves, which were very bad. I tried several remedies but did not get any help from them, and then, acting on the advice of a friend, I decided to try Dr. Williams' Pink Pills. I soon felt that the pills were doing me good, and after taking eight boxes I am glad to say I am now going about as usual, and am now enjoying the best of health with plenty of good, rich blood which makes me feel like an altogether different person. I earnestly advise all sufferers from rheumatic nervousness and kindred troubles not to delay using Dr. Williams' Pink Pills as, like myself, I am sure they will find a cure for their ailment. You can get Dr. Williams' Pink Pills through any medicine dealer, or will find them in one of the six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont."

**High Price for Butter**  
Winnipeg, Man. — A record price for creamy butter on the Regina market was established last week, when the Saskatchewan Co-operative Creameries Limited, sold a carload for shipment to Vancouver at 58 cents a pound.

**MEN SWEAR—WOMEN COMPLAIN**  
Just because their corns ache—easy to cure them with Putnam's Corn Extractor; it acts painlessly in twenty-four hours. For corns, warts and callouses the only cure is "Putnam's"; try it, 25c at all dealers.

**Settlers for North Country**  
Edmonton, Alta. — There is a very extensive movement of settlers and stock into the north country. During the past week parties from Saskatchewan, Manitoba, Ontario, Nebraska, Iowa and other points have passed through here on their way to the Peace River and Grande Prairie districts. In most cases they are taking considerable live stock with them, which would indicate that they are settlers that are familiar with the type of farming most successfully followed in those districts.

**U.S. Casualties in Russia**  
Archangel. — Since the landing on the Archangel front last September, the United States troops have suffered 528 casualties. Of these 196 were fatalities, there having died of disease or been killed, nine officers and 187 men. The men wounded consisted of twelve officers and 320 men.

The losses of the American north Russian force, during the past month have been extremely light, as most of the recent fighting has been done either by the British or the newly-formed Russian troops.

Bad resolutions are good ones that have been broken.

W. N. U. 1261

### Saskatchewan's Rich Clay Deposits

Practically Whole Range of Structural Clay Products Can Be Manufactured

The province of Saskatchewan has exceedingly rich deposits of fire-clays, and other clays from which practically the whole range of structural clay products can be manufactured. The department of the interior of the Dominion have carried on considerable field work, and conducted numerous laboratory tests in connection with these deposits, which are the subject of a very interesting report.

The following comment on these clay resources by N. B. Davis, M.A., assistant engineer of the Ceramic division of the department of the interior, will doubtless interest many readers:

"The importance to the whole Canadian west of the clay resources of southern Saskatchewan cannot be over-estimated. There is an abundance of high grade clays suitable for the manufacture of stoneware, Rockingham ware and white earthenware. The fireclays of the eastern section will make a No. 2 grade of refractory, while the more plastic clays should find a use as bond clays in the making of reverts and other special refractory shapes. They are also adapted to the manufacture of architectural terra cotta, paving brick, face brick and all varieties of turned clay products for structural purposes."

"Before the outbreak of the war in Europe, the immediate future of the clay industry in Saskatchewan promised well. The railways were spreading lines of transportation over the country, crops were fair, and the western farmer was beginning to appreciate something better than a sod black to live in. Lumber had to be hauled great distances and the price was accordingly high. Prairie fires were teaching the builders with wood the value of more fireproof construction. Altogether, the country was ripe for a better supply of burned clay products."

"With the war, needs have not materially changed. Business is simply making time for a better monetary condition. The country is essentially a farming one, and with wild boom days over, and the war at an end, normal conditions should soon return."

It is more than likely there will be a considerable development of this industry.

### Britain's New Treaty

Madrid. — The financial convention between Spain and Great Britain which had been under discussion for several weeks has been signed. Under the agreement Spain will loan Great Britain 75,000,000 pesetas at 5 per cent. in return for which Great Britain will permit the free importation of oranges and will export 150,000 tons of coal monthly to Spain.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have been given their power in numberless cases and have given relief to thousands of children, who, but for the good offices of this superior compound, would have continued weak and enfeebled.

**Exhibit of Steers at Chicago**  
Edmonton, Alta. — Alberta breeders of pure bred cattle have contributed in their ability to hold their own against the best that American cattle men can show, and have decided to have an exhibit of Alberta's pure bred beef steers at the international stock exposition at Chicago this year. Prof. W. L. Carlyle, with a committee, representative of each provincial association, has been appointed to select the animals to compete at Chicago.

**Chinese Claims to Be Stated**  
Peking. — Two notables of the province of Shantung have been designated to proceed to Europe to lay before the several allied governments the Chinese claims regarding the lease of Kiaochow.

# BOTS AND WORMS

The above is a true photograph of a horse's stomach. No wonder our horses are poor and weak. BOTS AND KILLING HORSES EVERY DAY by eating the insects from the stomach, and in some cases they eat holes thru. You can remove every bot and worm if you wish, with BOT & WORM EXPELLER. It's in powder form, and you mix it with the feed. It's absolutely harmless. Horse owners write they have removed from 500 to 1000 bots from one horse with BOT & WORM EXPELLER. Now is the time to rid your horses of bots. The larvae will not die unless they are eaten. They will soon commence to leave the stomach and work back into the intestines, and will feed from the intestines until the latter part of July. At that time they will pass into the body again, and will gradually pass from the body. In this case it will be necessary to feed for this remedy today. Don't delay. Price postage prepaid, \$2.50 per box, 3 for \$6.00. Your orders will be filled promptly.

## If After Eating You Have Pain, Stomach Needs Aid

Specialists who have devoted their lives to the treatment of stomach ailments now tell us that many people who complain about their stomachs have no stomach ailment at all.

You may suffer from bloating gas, sourness and other unpleasant symptoms, if so, your best course is to tone up the bowels with a reliable vegetable remedy like Dr. Hamilton's Pills. This obnoxious medicine is a wonderful corrective of all digestive and stomach disorders.

There is no mystery about the quick effect you get from Dr. Hamilton's Pills. They simply supply the additional aid required by the system to enable it to do its work correctly.

You'll enjoy your meals, digest everything you eat, look better, feel better, be free from headaches, constipation and indigestion, all these benefits come to all that use Dr. Hamilton's Pills. Every man or woman with a stomach ilt is advised to spend 25c on a box of this wonderful vegetable remedy.

## Carmen's Messenger

—BY—  
HAROLD BINDLOSS

WARD, LOCK & CO., LIMITED  
London, Melbourne and Toronto

(Continued)

The bottom of the hollow was roughly level, but part was covered with small, stunted trees, many of which had been uprooted and had fallen across each other. In the open spaces, rocks and boulders rose out of an inch or two of snow. It was plain that there was no chance of Daly's alighting uninjured there. One of the men had brought a train hand's lantern and they moved to the curve of the trestle, which rose black and ominously high, against the moonlight. It was not very dark among the trees and the rocks of the trestle flickered across the rocks and fallen trunks, but they found nothing, and presently came to the ice, where the light was not needed.

A dark colored object could be seen at some distance from the snow, but nothing broke the smooth white surface, and the party stopped at the edge of the water, which looked black and sultry. A faint light streaked by lines of foam. There was a belt of ice on the other side, it was bare.

"Must have gone plumb into the river," said one. "We'd see him if he came down." "Unless he was able to crawl up the bank," somebody suggested.

"I guess that's impossible," another remarked, scratching his head with his boot. "See here, it's hardly two inches deep; nothing to soften the snow. Besides, if he was able to crawl through the trestle would strike some of the cross braces or stringers."

The man who had brought Foster blinched his companion. "Not saying anything here. We'll stop at Green Rock and you can raise a posse of ranchers and look round the snow away with me. I reckon you won't find anything."

"They went back and when the train had started the man sat down opposite Foster in the smoking compartment."

"We'll probably want your evidence," he said. "What's your address?"

Foster noted that he did not ask his name. "Perhaps the fellow is a law-abiding citizen," Gardner Crossing, who was best. "I'm going there now."

The man nodded meaningfully. "That will satisfy me. On the whole, it's lucky the fellow shot at you and Hulton told us anything. I'm sure I didn't miss by much; there's burnt powder sticking to your cheek."

XXXII

### Featherstone Apologizes

Three days afterwards, Foster entered the office of the Hulton Company, where the head and treasurer of the firm awaited him. It was late in the evening when he arrived, but the private office was lit with the softened glow of machinery and rumble of heavy wheels. Outside it was very quiet and cut off by a long passage from the activity of the mill.

Hulton gave him his hand and indicated a chair. "You have got thinner since you took your holiday and look fagged down," he said. "I reckon we all feel older since that night last fall."

"I do," said Foster, and added, "The mill seems to be running hard." "She's going full blast. We've had plans for extension standing over until I could give my mind to them. I may be able to do so soon, and expect to consult you and Featherstone. In the meantime, I got your letter and another that to some extent put me wise. But I want a full account, beginning when you left and when he

stopped Hulton pondered for a minute or two. He somehow looked more human than on Foster's last visit; his sharp windiness was no so obvious, but Foster thought he would demand full retribution. Then he said:

"You are keeping something back; I reckon you haven't taken these chances on my account. There's something behind all this that concerns you or your company. I don't well to believe it, because I don't. Well, I guess that's not my business."

He paused and resumed in a curt, businesslike manner: "Daly's tale is plausible and may be true, but I have my doubts. Anyhow, I'm not going to believe it, because it doesn't suit my plans. We'll have Walters tried for murder."

"Although you admit you may be innocent," exclaimed Foster. "It ought to be enough to charge him with trying to kill Featherstone and stealing your house that drove evidence to convict him of the other crime."

Hulton smiled. "I don't care two bits if he's convicted or not. I want to clear my name and put you to the witness box."

"But you can't make me adapt my story to fit your charge, and the defending lawyer would object to Daly's account as having been told by Hulton. The judge would rule it out."

"I guess so," Hulton agreed. "For all that, it would be better to get it out now than later. However, the judge couldn't rule it out before it was heard." He knitted his brows and looked hard at Foster.

"You going to prove that I drove the robber and was not the thief, and though I don't think Walters will be convicted, he must take his chance. He was one of the gang that caused my son's death, and when he tried to kill your partner knew what he was doing."

Foster thought this was frontier justice and urged another objection. "After all the matter is in the hands of the police. You can't dictate the line they ought to take."

"I don't care," Hulton smiled, and Hulton answered with some dryness: "That's true, in a way. But I have some influence, which will be used for all it's worth. Anyhow, I'm not to be consulted. If it hadn't been for my agents, the police wouldn't have made such progress."

"I don't see how it can interest you to know that Daly's gone for good. Read him the night letter, Percival." "It is usual in Canada to allow lengthy telegrams, called night letters, to be sent at a very moderate charge. I don't see how it can interest you to know that Daly's gone for good."

## Japan Offers to Curb Reds If She Receives a Mandate for Indo-China

Paris. — The Japanese general staff has made an offer to Premier Clemenceau to stamp out Bolshevism throughout Russia, but has asked as the price that France give Indo-China to Japan. It is said that when the United States refused to sanction an inter-allied expeditionary force against the Bolshevik Premier, Clemenceau asked Viscount Chinda what Japan could do about crushing Bolshevism.

Chinda cabled to Tokio and received the reply that the general staff could map out operations for ending the control of Lenin and Trotsky in Russia within two months. The French then asked the Japanese if a slice of Siberia would be acceptable as payment.

The Japanese replied in the negative, saying that Japan was friendly to Russia and did not wish to incur Russian enmity by taking any Russian territory but would undertake to set up a stable Russian government which would repay the French loans and protect French finance in return for France ceding Indo-China to Japan.

This proposition was not acceptable to France, so the deal fell through.

It is reported that Japan has made an offer to England to send troops to Russia and bear the expenses of the expedition alone if she receives a mandate for Indo-China. The French received the former German colonies as compensation.

## A Winter's Harvest

### Make Money by Feeding Stock During the Winter Months

Many farmers in Western Canada make considerable money by feeding stock during the winter months. Here is a typical example of what is often done along these lines. Last October Mr. George W. Quinn, who farms about 1,400 acres of land near McGregor, Man., purchased seventy-nine head of steers on the Winnipeg market at an average cost of ten and a half cents a pound. They were Shorthorn and Hereford grades, and their average weight was nine hundred and seventy pounds each. After four months' feeding they increased about one hundred and fifty pounds each in weight and were sold for fifteen and a half cents a pound, yielding a net profit, after deduction of freight, commission and cost of feeding, of \$3,705.10, or \$46.90 per steer.

Four years ago Mr. Quinn had made it a practice to feed a few cattle on his farm each winter, and for this purpose grows plenty of fodder. He has proved by experience that good cattle make as good gain on coarse winter grains as on corn. He does not pamper his cattle, but allows them to roam and feed in the open most of the time, providing only cheap open sheds for shelter.

When they came from the market the steers were put on timothy and alfalfa. The stubble fields and summerfallow were also used for about six weeks. From December 1 they were given a gradually increasing ration of oat shaves and barley. The total gain, which amounted to about one and a half pounds a day over the whole period, is indicative of the feeding value of Western Canadian grains and grasses.

### Pay Thrift Stamps for Gophers

Pinto Creek, Alta. — A unique and novel method of popularizing the purchase of thrift stamps throughout the province has been adopted by the rural municipality of Pinto Creek. All premiums on gophers will be paid by the municipality in thrift stamps.

Two cars carrying 30,000 dozen eggs were shipped to Montreal from Saskatchewan last week by a Regina produce dealer. This is the largest shipment of its kind ever sent from Regina at this time of the year and marks the opening of a wider field for Saskatchewan eggs.

That Saskatchewan is scheduled to be one of the foremost provinces in the produce business is the opinion of those who know the possibilities of this province.

### A Great Future for Cattle Industry

Speaking at the opening of the nineteenth annual bull show at Calgary, Alberta, Prof. Geo. E. Day, formerly professor of animal husbandry at the Agricultural College at Guelph, Ontario, said that the quality of the bulls in Western Canada was improving from year to year. The west, he asserted, holds a great future for the cattle industry. He was well impressed with the stock shown at Calgary, which included nearly all the breeds of cattle known in this continent.

## After Five Years Of Heart Trouble

### Mrs. Brewer Turned to Dodd's Kidney Pills

Now She Is Telling Her Friends Who Advised Their Use the Good Dodd's Kidney Pills Have Done. Inverie, Alta., April 28th. (Special.) — Advised by her friends to use Dodd's Kidney Pills for heart trouble from which she had suffered for five years, Mrs. Marie Brewer, well-known and highly respected here, is telling how much she benefited from the treatment.

"Heart trouble is nearly always caused by defective kidneys, which fall in their work of straining the impurities out of the blood. The work of the heart is made too hard when it has to propel blood thick with impurities to all parts of the body. The result is, of course, weakness and distress."

That Mrs. Brewer's trouble came from her kidneys is shown by her symptoms. "I suffered from rheumatism, gravel, stiffness of the joints, backache and headache," she states. "My sleep was broken and unrefreshing. My limbs were stiff and swollen. My skin itched and burned at night. It was after a doctor had told me to stop eating salt that I tried Dodd's Kidney Pills. I must admit they did me a lot of good."

## Shorthorns for Cross-Breeding

### Shorthorn Blood a Decided Advantage in Winning Premier Honors

The value of the Shorthorn for crossing on other breeds is well known, and a large proportion of prize-winning steers in the selections for grades and crosses at our leading shows, carry Shorthorn blood in their veins.

Crossing the Hereford and Shorthorn has produced some of the most noted herds in the Panhandle country of Texas. See "Shorthorn Cattle," by Sanders).

Perhaps the most noted cross is that of the Shorthorn with the black polled cattle of Scotland, the result being the so-called "prime Scots," which have been favorites for a great many years with both farmers and butchers in Great Britain. This cross has a growthiness and readiness to fatten which pleases the cattle feeder and swells his bank account. No other breed has proven equal to the Shorthorn for crossing with Angus and Galloway.

Unfortunately for the Shorthorn, it does not stamp its color upon its progeny when crossed with other breeds to the extent that the Hereford, Aberdeen-Angus, and Galloway impress their color. In this way the Shorthorn loses a great deal of the value which it has when the cross-breeds are upon exhibition. For example, at the 1918 International Exhibition in Chicago, the grand champion carload were advertised as Hereford, because they had the Hereford color, but they carried a strong infusion of Shorthorn blood which was a decided advantage to them in winning premier honors. Also, the group of three steers winning first in the grade and crossbred specials, were black and hornless, but their sire was a Shorthorn bull, and they owed much of their excellence to this fact.

Though he is not a good advertiser from the standpoint of transmitting his color, the Shorthorn bull transmits the excellent qualities of the breed to a marked degree, and effects improvement wherever he is used. — G. E. Day, Sec. Dominion Shorthorn Breeders' Assn., Guelph.

### France Aims at Sea Trade

Paris. — Whatever the amount of indemnities which France will receive from Germany, French financial and commercial leaders have begun to recognize that other sources will have to be drawn upon to restore the vitality of the nation. The French government, accordingly, has launched a gigantic scheme for the development of the French ports and preparations are under-way for the improvement of waterways and the construction of a large merchant marine.

### Importance of Cattle Industry

That Alberta breeders appreciate the possibilities of the livestock industry is shown by their willingness to pay high prices for suitable animals. This was again exemplified at a sale of Shorthorn cattle at Brandon, Manitoba, last week, when Charles Beeching, of Dr. Wilson, purchased a yearling Shorthorn heifer for \$3,100, and another animal for \$3,000. It is rarely that the two highest prices at a sale are paid by the same person, but this is what occurred at Brandon. Altogether Mr. Beeching purchased seven head of cattle at this sale at a total cost of \$9,000. At the sale a total of eighty-seven animals were sold at a total price of \$52,875.

Don't strike a man until you are sure he deserves it—and then be sure he is smaller than you are.

## Spring Stock Sale

### Good Prices For Fat Steers and Calves Realized

The sale of fat stock is now a fixed feature of the spring show at Edmonton, Alberta. Feeders can convert their effort and care into cash and the packers are living up to their obligation to offer prices equal to the quality of the goods.

A university champion steer was the highest priced head, bringing 32½¢ a pound out of the Swift Canadian Co. Other animals sold for 26 cents and 20 cents a pound, while none was sold for less than 17½ cents a pound. Sixteen calves were auctioned after the heavy beef realizing up to 21¢ a pound.

The commercial hogs were sold at a flat rate of \$20.50 a hundred pounds.

## Extend Exhibition Buildings

Regina, Sask. — The city council has accepted the report of the commissioners concerning extensions to the buildings of the industrial and agricultural exhibition association. This means that a new winter fair building will be erected at a cost of about \$20,000. The summer exhibition this year will be on a more ambitious scale than before.

## LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

### Take no chances! Move poisons from liver and bowels at once

Mothers can rest easy, after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently pass out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can not cause injury. No interference with their little ones, if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleanser" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

## Japanese Disappointed

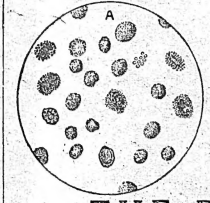

Tokio. — The report from Paris that the plea of the Japanese delegates for the inclusion in the covenant of the League of Nations of a clause providing for racial equality had failed of approval has caused great disappointment in Japan.

The Hoshi says that Japan should refuse to join the league of nations, but the majority of the newspapers declare that Japan must face the situation bravely and steadfastly endeavor to enhance the nation's progress and prestige.

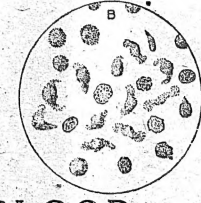

## Youth and Age

Some men are born old, and some never seem old. If we keep well and cheerful we are always young, and it is not in youth or olden years that we count as old. —Tyron Edwards.

## NORMAL BLOOD

## IN ANEMIA

## THE BLOOD

(BY LIEB HERBERT SMITH, M. D.)

### AFTER INFLUENZA AND HARD WINTER COLDS.

After an attack of the grip or pneumonia, or even a hard cold, the blood is left thin, watery, and one is said to be anemic. Instead of the blood cells being round, as in diagram "A," they become irregular, as in "B." When you feel weak, nervous, or the skin breaks out in pimples, eruptions or boils, and you feel "blue" and without any snap or energy, sometimes hands cold and clammy, there is usually a large decrease in the red or white blood corpuscles and one should build up with some good blood-builder and tonic.

You can put iron in your blood and the cells become round and red, losing the irregular shape, by

faking a good iron tonic, called "Ironite," put up by Dr. Pierce and sold by most druggists. "Ironite" is compounded of a soluble iron, nux and herbal extracts. With this you gain in vim, vigor and vitality. Instead of pale cheeks, tired and worn out before the day is half done, after taking "Ironite" your cheeks will have color, you will feel strong and vigorous and ready for work.

If or if you like a good alternative and herbal tonic, such a one can be obtained at any drug store, favorably known for the past fifty years as Dr. Pierce's Golden Medical Discovery. This is made from the wild roots and barks of forest trees and without the use of alcohol.

# Help the Y.M.C.A. Finish its Work For Soldiers

Help the "Y" Construct the Manhood  
that will Re-construct Canada

ALL the world now knows that the Red Triangle of the  
Y.M.C.A. was the "Sign of Friendship" to thousands  
of your brothers, sons, nephews, cousins and neighbours'  
boys in the last four and a half years. Wherever the Cana-  
dian Soldiers went, the "Good old Y" went too. And  
now it is coming back home with them!

For the support which has made possible the war work  
of the Y.M.C.A. we thank you. Your money has been well  
expended. We have rendered full account.

We ask now your continued sympathy and support for  
Red Triangle Service for our Soldiers during demobilization,  
and for Y.M.C.A. work for Canada generally during the Re-  
construction period. The Annual Red Triangle campaign  
will be held throughout Canada May 5th to 9th, 1919. The  
objective is \$1,100,000.

## For Our Men Returning

For the soldiers and their dependents, returning  
from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves  
Great Britain, with a full equipment of games, gramophones  
and records, magic lantern, literature and writing materials.  
Where possible, also a piano or an organ. Lectures, concerts,  
sing songs, instruction re Government repatriation plans, and  
Sunday Services.

2. Red Triangle comforts and facilities for the men on arrival  
at Halifax, St. John, Quebec and Montreal, including coffee  
stalls, with free drinks, free eatables, cigarettes, candies, etc.

3. Red Triangle men on every  
train to provide regularly  
free drinks, eatables and cigarettes,  
organize games and sing songs, and  
furnish information.

4. Red Triangle free canteen  
service, information bureau, etc.,  
at each of the 22 Dispersal centres  
in Canada.

5. Red Triangle Clubs in the  
principal cities of Canada in the  
shape of large Y.M.C.A. hostels to  
furnish bed and board at low rates  
and to be a rendezvous for soldiers.

6. Seventy-five Secretaries to superintend Red Triangle  
service in Military Hospitals, Camps and Barracks throughout  
Canada.

7. Tickets entitling soldiers to full Y.M.C.A. privileges for  
six months at any local Y.M.C.A. furnished.

In addition to our work for the returning soldiers, we have  
to maintain the Red Triangle service to the full for the soldiers  
in Siberia, as well as the work of special secretaries in Northern  
Russia, Palestine and Poland.

## Y.W.C.A.

For the wives and children  
Overseas, dependent upon Cana-  
dian soldiers, and for Y.W.C.A.  
work in Canada generally, a sum  
of \$175,000 from the Red Tri-  
angle Fund will be set aside for  
the Dominion Council of the  
Y.W.C.A., which is caring for  
the soldiers' women folk, and  
their little ones on the long jour-  
ney, from Liverpool to Canada,  
and is also extending its work  
for Canadian girls.

For their sake also be gen-  
erous when you make your  
contribution.

FOR the sake of our victorious soldiers and  
their dependents, and the happiness  
of their home-coming; for the sake of our future  
citizens, our teen-age boys; for the sake of the social  
betterment of the toilers in factory and work-  
shop; for the sake of lonely men and boys in  
our mines and forests; for the sake of Christian  
Society and Canadian manhood—we appeal  
to you. Give us your contribution, little or  
big. Be as generous as you can.

Hand your contribution to the canvasser when he  
calls, or if you live where it is difficult for him to call,  
send it by check, money order or registered letter to  
the National Treasurer, Red Triangle Campaign, 120  
Bay Street, Toronto.

## Please Note:

We are not asking for  
money to carry on our  
work Overseas, with the  
Army in Great Britain,  
France or Belgium. That  
work will continue at its  
maximum for some months,  
financially provided for by  
the liquidation of our  
assets Overseas, and will  
not terminate till the last  
man has sailed for home.

## National Council, Young Men's Christian Associations of Canada

# Allies Consider Plan To Banish Kaiser

Paris. — The plan of the council of four to have Belgium prosecute the former German emperor on the charge of responsibility for the war, if meeting with objections which again are bringing up the whole subject for revision. Those who have the matter in hand divide the question of war responsibilities into two distinct classes, the first class includes military and naval offenders, like General Ludendorff and von Tirpitz, and those accused of excesses against the usual rules of warfare. The second class includes former Emperor William, former Chancellor von Bethmann-Hollweg and others whose offense is chiefly of a political nature.

Concerning the first class, that of military offenders, it is known that there is no court martial suitable to undertake such military trials, but it is pointed out that every country has its own system of court martial for military offenses committed within its borders.

This has developed the suggestion that these countries combine their court martials and act under a military procedure codified from all the separate military codes. A joint court martial would thus be constituted, capable of dealing with offenders of the first or military and naval class.

Concerning the political offenders it is stated that a tribunal is not necessary and would be ineffective, owing to the legal immunity of political offenders. Therefore, it is maintained that the action against Napoleon furnished a precedent for the determination of the allied course as a general measure of policy.

In the case of Napoleon, there was no trial but he was confined on the island of St. Helena as a general measure of policy for the tranquility of Europe. Some such general policy is designed to reach ex-emperor William and other political offenders with Belgium, or another country against which the political offenses charged were committed, acting for the purpose of securing the extradition of the individual as a preliminary to putting the general policy into effect.

## Field Peas for Prairie Farmers

Satisfactory Yields That Can Be Obtained on Summer-fallowed Land

The farmer in Western Canada has not hitherto given the consideration to the growing of field peas that the possibilities of this crop warrant. No doubt the large crops of wheat, oats and other grains that are obtainable in these prairie provinces have occupied most of his attention. But the advantages of this crop both as irrigated as well as on non-irrigated land are great.

The satisfactory yields that can be obtained on summer-fallowed land are shown by the results at the Dominion experimental farm at Lethbridge. Here the average yield for the last eleven years has been twenty-seven bushels to the acre. Crops grown on irrigated land in various parts of the irrigable areas of Alberta last year yielded more than thirty bushels to the acre. As the cash value of the crop is particularly high and likely to remain so for some time owing to the demand for such the acreage set aside to it this and coming years will be greater than it has been in the past.

**Ambassador Going to Tokio**  
Washington. — Viscount Ishii, Japanese ambassador to the United States, will sail for Japan, it was officially announced at the Japanese embassy.

"The ambassador is returning to Tokio for a conference regarding various matters before the Japanese government," the embassy declared. "The ambassador will depart the first of May."

**U.S. Credit to Britain**  
Washington. — A credit of \$200,000,000 in favor of Great Britain has been established by the treasury. Great Britain's total borrowings from the United States thus were raised to \$4,136,323,000 and loans to all allies by the United States now are \$9,033,884,000.

**Losses Total \$5,000,000,000**  
Melbourne. — Reports caught here of the proceedings of the reparations committee of the peace conference at Paris, place the losses of the British dominions and colonies, for which payment shall be asked from Germany, at \$5,000,000,000.

## In German Prison

Saskatoon Woman Prisoner of War For Two Years

New York. — The New York Evening Globe prints the following: Mrs. Elnora V. McCormick, and her sister, Mrs. Dorene Drinkwater, whose maiden name was Marsden, said to be daughters of a prominent hotel man of Saskatoon, were two of the forty-seven war brides of soldiers and sailors who arrived here on board the transport Plattsburg.

Mrs. McCormick, who went to England in 1914 with a Canadian stenographic corps, tells a story of brutalities inflicted by the Germans upon women prisoners. After a period in England she was sent to General Hospital No. 12 in France, on March 4, 1917. Shortly afterward the hospital was the centre of simultaneous air and land attacks by the enemy and the young stenographer, with about 100 others, mostly nurses, was taken prisoner.

## Exporting Western Butter

More Saskatchewan Butter for the United States

Saskatchewan butter seems to be growing into favor in the United States. Having tried it the markets on the other side of the line are asking for more. Another carload left Saskatoon a few days ago, this time for Chicago. This makes a total of seven carloads of butter—four to New York and three to Chicago—that have been shipped to United States markets from Saskatoon recently.

The manager of the Saskatchewan Co-operative Creamery Company, the shippers of this butter, reports a splendid increase in the production of butter throughout the province, and that the quality of the butter produced is making a favorable impression in the new markets.

## Canada One of World Powers

Troops From Dominion Receive Highest Praise

London. — At a luncheon at the Savoy hotel tendered Lloyd Harris, chairman of the Canadian trade commission, and his colleagues, at which Sir George Perley, president, Sir Auckland Geddes, minister of national service, in proposing a toast to the returning Canadian divisions, said that all knew how gallantly, nobly and successfully the Canadian divisions played their allotted part in the great campaign which ended the war against Germany. Their record was one of which any nation might be proud, if it had not other claim to pride.

Canada, said Sir Auckland, no longer found herself a subordinate partner in the British empire, but one of the greatest world powers—one of the great nations which had been proved on the battlefields of Europe.

## Better Farming Trains

Practical Means of Affording Agricultural Education to Farmers

One of the most popular and practical means of affording agricultural education to farmers throughout the western provinces of Canada has been the so-called Better Farming Trains. These trains travel from point to point in the various provinces, and have with them an efficient staff of lecturers from the provincial universities and departments of agriculture, competent to talk interestingly on subjects of use to the farmer. They also carry a good selection of pure bred livestock and other things of interest to the farming community. Last year owing to the request of the government, that travel on the railways be limited as much as possible, these trains did not run.

It is likely, however, that they will all be running again this year, in fact the Saskatchewan government is already making preparations for the train to run throughout that province beginning May 27th.

## Wiped Out Majority

Soldiers' Vote Defeated Prohibition in New Zealand

London. — The vote of New Zealand soldiers has wiped out the majority for prohibition which was rolled up in that commonwealth on April 11, according to a dispatch to the Central News from Christchurch. In the New Zealand election the prohibition forces claimed a majority of more than 12,000 votes. It was announced at that time that the ballot cast by 40,000 soldiers had not been counted. An indication of the trend of the soldier vote was given, however, by New Zealand soldiers in England, the anti-prohibition forces having 15,770 votes out of approximately 20,000.

Ever notice how things that are none of your business will interest you?

## Five Europeans Slain

Rioters in India Burned the Bodies of Their Victims

Lahore, India. — Further details of the rioting at Amritsar state that five Europeans were murdered. After looting the banks the rioters poured oil over everything and fired the buildings. The bodies of the victims in the National bank were burned beyond recognition.

Manager Thompson, of the Alliance bank, killed several of the rioters with his revolver before being overpowered. Everything of value in the town hall, including the official papers and records, were destroyed. The mission church and the Punjab religious depot were also burned. Several Europeans had thrilling escapes, a number of them being sheltered and housed by Indians until calm prevailed about midnight. A lady doctor in the municipal hospital escaped by hiding in a closet and dressing in native costume.

The police have behaved splendidly, saving a number of Europeans. Local troops, with reinforcements from Lahore and Jullundur, finally quelled the disturbance.

## Polish Troops Going Home

Will Be Transported Across Rhine at Various Points

Trèves. — The first section of troop trains conveying General Haller's Polish soldiers across Germany reached Trèves on its way to Poland. These trains are expected to pass through Trèves and Coblenz daily until the troop movement is completed. Each train carries about one thousand men.

All six Polish divisions will be transported across the Rhine at various points, and it is estimated that it will require 60 days for all of them to pass through the occupied areas. Some of the troops are going by way of the French sector.

## Swiss Recognize Government

Report Has Caused Sensation in German Political Circles

Berlin. — The Swiss federal council, it is reported, has decided to recognize the new German government on the ground that it was elected legally by the national assembly which was chosen by the votes of the people.

The report has caused a sensation in political circles here. A Copenhagen dispatch on March 25 quoted a Berlin message as saying that President Ador of Switzerland had replied cordially to a letter from President Ebert, announcing his accession. It was added that Switzerland was thus the first foreign state to "formally acknowledge the new German government."

## Indian Authorities Restore Order

Cotton Markets in Bombay Have Been Re-opened

London. — Prompt measures taken by the Indian authorities to deal with the disturbances that occurred at Bombay, Ahmedabad and other points recently have resulted in the restoration of order everywhere, says a news despatch from Bombay. The cotton and other markets in Bombay have been re-opened.

In the disorders at Ahmedabad, the government buildings were burned down and a train conveying troops from Bombay to restore order was derailed by removal of a rail. There were no casualties, but the railway and telegraph communications were interrupted.

Bombay. — Objectors to the Rowlett act which prohibits the publication and distribution of seditious and disturbing literature, have started a campaign of passive resistance, beginning with resistance to the act respecting the press. The committee's statement says that for the time being the laws regarding prohibited literature and registration of newspapers may be disobeyed. The committee selected certain prescribed books and pamphlets, mostly written by Gandhi, which "do not directly approve or encourage violence." These may be publicly sold and distributed.

## Greek Canadian Trade

London. — Reuter's telex, in connection with Canadian trade developments in Europe, that a Greek commercial commission is leaving Athens at an early date for Canada to ascertain the extent to which Canadian industries supply Greek requirements and to arrange preliminaries for placing Greek orders in Canada.

## Will Erect Bridges

Regina, Sask. — The provincial department of highways has announced that part of its construction program for the year will be to erect five steel bridges near Canora, Maple Creek, Rouleau and Vanguard.

# Foch Says Germans Must Be Kept Down

## Increase in Coastal Patrol

Figures Include Only Vessels Flying White Ensign of Navy

Ottawa. — The large increase in Canada's coastal patrol fleet during the war period is indicated in a return tabled in Parliament at the request of Mr. Tobin, who is informed that while the fleet consisted of eleven vessels at the close of 1914, the number had grown to 133 at the end of 1918. It is explained that these figures include only the vessels flying the white ensign of the navy.

The return also contains the information that the Canadian authorities were in command of all the naval vessels of the navy, with the exception of the Niobe, Rainbow, Shearwater and two submarines, the movements of which, after they were placed at the disposal of the admiralty, were subject to the supreme control of the admiralty.

## Japs Committed Massacres in Korea

According to Cablegram Received From Native Christian Pastor

San Francisco, Cal. — Japanese began what was described as a "massacre" in Korea at Seoul, the capital during a demonstration March 28, according to a cablegram received here by the Korean national association from a native Christian pastor.

The cablegram was filed from Shanghai. According to officials of the Korean national association here, the information was sent by messenger to Seoul to Shanghai by the association's representative at Seoul.

The cablegram read: "Japan began massacring in Korea. Over thousand unarmed people killed in Seoul during three hours demonstration on 28th. Japanese troops, fire brigades and civilians are ordered shooting and beating people mercilessly throughout Korea, killed several thousand since 27th. Churches, schools, homes of leaders destroyed. Women naked and beaten before crowds, especially leaders' family, imprisoned being severely tortured. Doctors are forbidden caring for wounded, Foreign Red Cross urgently needed."

## Will Give Huns Time to Decide

Stride Toward Early Peace Has Been Taken

New York. — The Associated Press issued the following summary of the international situation: A sharp forward stride toward an early peace has been taken. The council of four in Paris has formally invited Germany to send delegates to Versailles April 25, there to hear the verdict of the entire allies and associated powers and the sentence they have imposed upon her for having set the world aflame.

The general opinion in Paris seems to be that Germany may endeavor to haggle over the terms and try to secure a diminution in their severity, but that within a relatively short time the delegates will bow to the inevitable and sign the compact. Advances from London are to the effect that the terms of the peace treaty will not be made public until they have been delivered to Germany.

## Will Hurry Hudson Bay Line

Winnipeg. — The speedy prosecution of the Hudson Bay railway, so far as possible, was practically assured by the Ottawa authorities, announced Premier T. C. Norris. The premier has just returned from the east.

The sum of \$100,000 will be placed on the estimates for this season, and in all probability this will be supplemented as the occasion requires, the premier intimated. Hon. J. D. Reid, the federal minister of railways, was very sympathetic towards the proposal, but a great deal depends upon the labor and material supplies, Premier Norris said.

## Will Claim Damages

Paris. — Germany intends to claim an indemnity from the allies, according to the Frankfort Gazette. It says the German negotiators at Versailles will ask payment for damages sustained from aerial attacks, from the occupation of German territory by the allied troops and for the delays in concluding peace causing a prolongation of the Bolshevik and Spartan trouble.

## Rumanians Compelled to Retreat

London. — Russian soviet troops, after heavy fighting, have compelled the Rumanians to begin a general retreat into Bessarabia.

## Machinery for Norway

New York. — The Hergenberger, sailing for Norway, took a cargo of machinery, the first of the kind which has gone from the United States to that country since the war began. Norway, formerly getting her machinery from Germany, is now turning to the American market for it. The liner also carried representatives of some prominent American manufacturers, going to Europe to study the international trade situation.

No man with a knowledge of law ever mistakes the will for the deed.

Remember those 70,000,000 Germans will always be a menace to us; they are an envious and warlike people. Their characteristics are not changed. Fifty years hence they will be what they are today. Do not trust the appearances of the moment."

The marshal then argued that only on the Rhine itself would it be possible to arrest the Germans in the event of another attack. He talked long and earnestly about the Rhine and said that some people would object that it would take too many troops to hold the river.

"But it will not take so many as it would to hold a political frontier, for the Rhine may be crossed only at certain points, whereas a political frontier can be broken anywhere," he said.

"The next time, remember, the Germans will make no mistake," said Marshal Foch. "They will break through into northern France and seize the channel ports as a base of operations against England. They failed the last time because they did not believe England would come in and when they found she was coming in, it was too late to change their plans."

"You think the Germans will have no arms for another attack. 'Oh, oh! How do you know? By the time you found out that they had them, it would be too late.'"

## Invest New York Capital

New York capital is being invested in building enterprises in Peace River. J. C. Gault, of that city, is now erecting a large plant with plans of a two-story building, 32 x 60 feet, the ground floor of which will be arranged for store premises, and the upper floor for offices. Arrangements are also in progress for rebuilding the premises recently destroyed by fire.

## Weather Conditions are Favorable

Calgary, Alta. — The Calgary Herald, in presenting reports from many parts of the province, respecting the weather, moisture, seeding and labor conditions, says: "It is gratifying to note that the great majority of these reports indicate that weather conditions are favorable, that there is plenty of moisture for operations necessary at this season of the year, and that seeding conditions range from excellent to ideal. Generally speaking, in respect to the three conditions mentioned, the situation is eminently encouraging. The one drawback is the labor crisis. It is reported at many centres that labor is scarce in spite of the good wages that are offered. One explanation of this is that returning soldiers, who are qualified for farm work, are awaiting definite decision by the federal government respecting the land settlement scheme and the war gratuity."

## Greatest Human Document

London. — A member of the British delegation in Paris has stated to the Central News special correspondent that "when the world reads the full peace treaty, two or three weeks hence, it will recognize it to be the justest, sanest, and greatest human document ever produced." He was also able to state that the heads of the French government were quite satisfied with the manner in which their claims regarding reparations and future security were being met.

## Machinery for Norway

New York. — The Hergenberger, sailing for Norway, took a cargo of machinery, the first of the kind which has gone from the United States to that country since the war began. Norway, formerly getting her machinery from Germany, is now turning to the American market for it. The liner also carried representatives of some prominent American manufacturers, going to Europe to study the international trade situation.

## No man with a knowledge of law

ever mistakes the will for the deed.

# The Italian Question Is Now Uppermost

Paris. — In high quarters the question is being considered of issuing some form of a joint statement bringing out the fact that Premier Lloyd George and Premier Clemenceau are in agreement with President Wilson on Fiume and other phases of the Italian problem.

These are the most anxious days of the peace conference with all eyes turned toward Rome. While work proceeds on the final details of the treaty before the meeting with the German delegates at Versailles, yet the absorbing topic everywhere is the Italian issue and the effect it has in store for the conference. Brief information reaching official quarters show the situation at Rome to be intense with an anti-United States feeling ruling high. The departure of Baron Sonnino and Signor Salandra for Rome took the last of Italy's plenipotentiaries from the scene of negotiations, leaving only subordinates, without power of action. President Wilson joined the United States delegation at the Hotel de Crillon for a conference and then returned to his residence for a renewal of the council with Premiers Clemenceau and Lloyd George.

All indications point to the fact that Premier Lloyd George and Premier Clemenceau are standing squarely with the president on the Italian issue, thus presenting a united front of the principal great powers. Other written statements have been so far withheld, in order not to inflame Italian sentiment further. But friends of the president have taken steps to relieve him from being the sole person to bear the burden and this may lead to some public declaration of the British and French attitude. In the meantime it can be stated that President Wilson's copy of his Italian declaration bears the initials of Clemenceau and Lloyd George. The French premier affixed his signature and gave his approval for its publication, but the president delayed its issuance.

Besides this initiated approval of the British and French premiers, another written document exists, which was prepared immediately after the issuance of President Wilson's statement, with a view to expressing approval and support from the highest British official quarters. This is not from Lloyd George, but from one able to speak with authority on foreign affairs. It is devoted chiefly to Fiume, examining the question at length and concluding against the Italian position and in support of the president.

It is significant that the name of Italy has been included in the final draft of the peace treaty, indicating that the allies hold there is no change in Italy's status as signatory of the treaty.

Despite the strained situation, Italy continues to be given full status as one of the entente allies.

## Gomper's Seriously Injured

New York. — Samuel Gomper, president of the American Federation of Labor, was seriously injured when a taxicab in which he was riding was struck by a Broadway street car and hurled twenty feet to the curb.

Surgeons who were summoned reported after an examination that two of Mr. Gomper's ribs had been fractured, his right hip sprained, and that he had suffered severe body contusions. Despite his advanced age, sixty-nine years, the doctors declared that there was no likelihood of the injuries proving fatal.

## Kaiser's Property in B.C.

Ottawa. — It is probable that all alien property in Canada now in the hands of the official Canadian and aggregating several millions, will be kept. At least this will be done while rules for its disposition are made at the peace conference.

Rather wide circulation given to a report from British Columbia that property of the Kaiser out there is to be confiscated, brought the official statement that no dollar's worth of Canadian holdings has ever been identified as belonging to the Kaiser.

# Rumania Defeats Hungarian Army

Berlin. — Part of the Hungarian communist army facing the Rumanians southeast of Budapest has surrendered and the rest is in flight, according to a Rumanian official statement received here.

West of Budapest the Czech-Slovaks have occupied Kormoran on the

## Germany's Idea of League

Suggest World Parliament and International Tribunal

Copenhagen. — The German counter proposals to the league of nations are outlined in a long dispatch from Berlin. The German draft proposes that the league shall embrace belligerent states and all neutral states, which were signatories of the Hague treaty, other states to be admitted by the consent of a majority of the members of the league, but the Holy See to be admitted without this condition. It is proposed that the league shall function through a congress of states and a world parliament, the former to be the chief administrative body, comprising representatives, with equal rights, of all the governments.

The world parliament is to be elected from the parliaments of each state, one representative for every million inhabitants, but no parliament to send more than ten representatives.

Further, it is proposed that two special bodies shall be created, an international tribunal and a mediation bureau, to decide respectively questions of interests. Every difference between states must be submitted to either body.

## Secret Treaty Exposed

Telegram Showing Duplicity of Bulgaria and Austria Published

Paris. — The Journal des Debats publishes the text of the military convention between Germany, Austria, and Bulgaria, entered into at German military headquarters in August-September, 1915. Clause eight shows the pressure which caused King Constantine's refusal to follow Mr. Venizelos' advice and support Serbia. The Journal des Debats also publishes a secret telegram, showing the sinister duplicity of Bulgaria and Austria. Auguste Gauvain points the moral that the recurrence of such traps as were laid in 1915 will not be prevented unless the guilty states are deprived of power to harm.

## Tyrolean Want Independence

Complain That Italy Wants to Swallow Up Their Country

Paris. — Tyroleans claim to recognition as an independent nationality are set forth by the delegates of the Tyrolean national council in Switzerland. Walter Lutzel and Dr. Otto Guggenberger, in a lengthy memorial. The heavy mountaineers of the Tyrolean Alps complain that Italy wants to swallow up their country, which was part of the former Austrian empire and furnished the former Emperor Charles' army with one of its crack regiments, the Tyrolean sharpshooters.

Panic Over Rabies in England. — The first panic over rabies in twenty-one years is spreading throughout England. Several cases developed in the country recently and two were discovered in London in the past week.

The board of agriculture has issued an order which went into effect, that all dogs in London and surrounding counties must be muzzled or led and that none can be taken in or out of these boundaries.

Naturally there has been unexpected demand for muzzles which has swamped the stores and led to charges of profiteering. One firm placed 60,000 muzzles on sale, but a newspaper placed in the streets said, "700,000 muzzles wanted."

## Heligoland Status Decided Upon

Paris. — The question of Heligoland was disposed of by the council of three while the matter of the Kiel canal and the disposition of the German cables was also discussed. It is understood that the economic question was settled, although no details were given out.

## Danube and Raab (Gyor).

Geneva. — The Czech Slovak forces continue to advance in the direction of Budapest, according to advices from Innsbruck.

The advices say it is reported that Bela Kun, head of the Soviet government, is preparing for flight into Switzerland.

## Troopship Nearly Hit Mine

Floating Infernal Machine Was Off Grand Banks in Route of Atlantic Liners

New York. — The giant troopship Leviathan with 12,000 soldiers, the last of six transports to arrive here, bringing 22,972 men, missed a mine by only 30 feet while off the Grand Banks of Newfoundland last Tuesday morning, her officers reported when she docked tonight.

The officers of the ship said the Leviathan had been warned to look out for a floating mine the day before by the transport Mount Vernon, which had preceded them. On receipt of the radio warning, the course of the ship was changed and she sailed nearly 100 miles to the southward of the location of the mine as given by the other transport.

The floating infernal machine was sighted, the officers said, at 10:40 a.m. by Lieut. Commander Harold Cunningham, who was on the bridge, dead ahead of the transport. Quick thinking and quick action was all that averted a collision.

A desperate whirl of the wheel sent the steamer past the mine with a margin of safety of ten yards.

## Ban on Civil Aviators Lifted

British Agree to Civil Aviation Schemes and Provide for Overseas Routes

London. — The ban of civil aviators will be raised May 1 in Great Britain. The air ministry, in preparation, has mapped out various air routes along which the civilian aviators will find aerodromes and mechanics for their machines. These thoroughfares will not only enable direct communication between London and Ireland, and London and the north, but also cater to some of the more important towns in the industrial districts.

Aerodromes for traffic to and from overseas are for the present time limited to four. At these, overseas machines must land for examination of goods and passengers. The aerodromes are for commercial traffic at Lympne, in Kent; for Dutch traffic, at Hauligh, in Suffolk; for Scandinavian traffic, at New Holland in Lincolnshire, and for traffic direct to London, at Hounslow in Middlesex.

## French Losses in War

Number Over Three Per Cent. of Population

Paris. — The Petit Parisien publishes a table of the relative losses of the allies in the war, according to which France, with a population of 38,762,000 mobilized 9,717,000 men representing 20 per cent. of the population, and her losses (killed) numbered 1,308,000, or 3.37 per cent. of the population.

England mobilized 5,704,000 men, or 12.6 per cent. of the population, and her losses were 680,000, or 1.5 per cent. of the population. The British colonies are not included in these figures.

Italy mobilized 5,250,000 men, which represents 15.1 per cent. of the population, and lost 460,000, or 1.32 per cent.

The United States mobilized 3,800,000 men, or 4.1 per cent. of the population, and her losses, 122,000, represents a percentage of .013.

## Britain Will Restore Forests

Trees Will Replace Heavy Timber Cut Down During War

London. — Two hundred thousand acres of forest land in Great Britain are to be replanted at a cost for planting and maintenance the first ten years, of \$17,000,000, according to an announcement by the government. The trees will replace some of the heavy timber cut down during the war and provide additional forests, so that the country may be independent of other timber sources in case of emergency.

Foresters are being trained and the necessary saplings are being prepared. If the experiment is successful, it is proposed to increase the acreage of re-forested land to 1,700,000 acres within the next 40 years.

## Fight for Munich

Geneva. — German government troops are attacking Munich and violent fighting is going on, the losses being heavy on both sides, according to advices received here by way of Basel.

The government troops are said to be gaining ground. Munich is virtually isolated from the rest of Germany.

## A Slow Mine

Amiens. — A slow mine left by the Germans, exploded on the railroad between Miramont and Achiet. The explosion cut the main line of the road running between Paris and Belgium for a distance of 100 yards. No body was hurt by the explosion.

## Amend Naturalization Act

Aliens Who Served Overseas With Canadian Forces Seek Rights of Naturalization

Ottawa. — War conditions suggest the need of some amendments to the naturalization act and they will be embodied in a bill to be introduced shortly by the secretary of state.

Among the problems that are being dealt with, but undecided, is the demand for speedy naturalization of aliens who served with the Canadian forces. Many of them enlisted both in the west and east, some coming from the States and some from Europe. Though they have fought in the Canadian forces they are really not Canadian citizens or entitled to exercise the rights and privileges of citizenship. They are now demanding such rights.

The British government has been consulted and while from the fact that the naturalization law is a compact between the imperial and overseas governments, it cannot readily be amended before the war, a suggestion of a local naturalization which would take into account the period of war service.

## "Black Watch" The Best Black Plug Chewing Tobacco on the Market

Shorter Hours and More Pay

Increased Wage Scale Asked By Winnipeg Workers, Led by the Railway Men

Winnipeg. — Practically all classes of workers are included in organized labor's drive for the 44-hour week and increased wages in Winnipeg. Negotiations affecting thousands of employees and almost all classifications of industry are being carried on daily in an effort to reach a settlement before working agreements expire on May 1.

Railway shopmen demand a 44-hour week and an increase of 20 to 30 cents per hour in pay. A union committee will leave Winnipeg before the end of the week to negotiate with the railway war board in Montreal. The demands are backed by 37,000 shopmen throughout Canada. About 6,000 Winnipeg men are affected.

## Growth of British Air Force

ASTOUNDING RECORD MADE DURING PERIOD OF THE WAR

London. — The air ministry has published an astonishing record of the work of the air force during the war. It states that before the war the air force consisted of 272 machines, 197 officers and 1,647 men, while in October, 1918, there were 22,171 machines, 27,956 officers and 263,842 men.

From July, 1916, to the armistice, the air force on the western front brought down 7,054 enemy aircrafts, dropped 6,042 tons of bombs and fired over ten and a half million rounds at ground targets.

## Japan is Resentful

Tokio. — In editorial comment on the clause to secure a place in the covenant of the league of nations, the Japan Times declares the national disappointment of Japan verges upon disaffection and affords opportunity for sensationalists to stir up anti-white prejudice. Representative Japanese regard the Paris decision as a snub and humiliation, the newspaper says. It continues:

"The refusal of the august congress of white peoples to accept the principle of equality of non-whites will probably erect a perpetual barrier to the harmonious comingling of the races toward which it was believed the world was tending. It can only tend to accentuate racial prejudices."

## Back to War Bread

Paris. — An increase in the milling percentage, which will virtually put the world back to a war bread basis for the next three months, is part of the program adopted by the supreme food council under the chairmanship of Herbert C. Hoover.

The program also includes a complete plan for securing and distributing food to allies, liberated, neutral and enemy countries until next harvest. One object of the program is to determine the available food supplies and to distribute shipping as not to put undue pressure on any market.

## No Relief for Germany

New York. — The federal reserve board issued an order here authorizing the remittance of funds to the countries of Central Europe, excluding Germany, through the United States relief administration only. United States food stocks held in Europe by the administration will be used as the medium of exchange.

W. N. U. 1261

# New Covenant of League of Nations

## Allies Welcome Delay

Will Not Hurry Germans on Account of Italian Situation

Paris. — The date of the arrival of the German peace delegation at Versailles is still not determined, and the allied representatives are apparently not pressing for haste in view of the fact that the uncertainties of the Italian situation might possibly make an early inauguration of formal discussion between the representatives of the allied and associated powers and the Germans impossible. Delays in framing the treaty of peace is also a reason for not desiring the speedy arrival of the enemy.

It is said that no final decision has been reached as to according freedom of movement to the Germans as required by Count von Brockdorff-Rantzau, the German foreign minister, regarding possible access by allied newspapers as representatives to the German delegation. Andre Tardieu, who is in charge of arrangements, has flatly opposed any freedom being given the Germans and has insisted that they must continue to be treated as enemies until the treaty is signed.

## May Recall Y.M.C.A. Men

Paris. — The possibility of ordering all United States Y.M.C.A. workers out of Italy is being considered by John R. Mott, of the war work council of the Y.M.C.A. There are about 200 American workers in Italy assigned to various units of the Italian army, and Mr. Mott was somewhat perturbed over the possibility that they might become involved in manifestations of anti-United States feeling.

Washington. — The revised covenant of the league of nations as it will be presented at Paris to the peace conference in plenary session, is made public by the state department. Its features, including important amendments designed to meet criticisms in the United States of the original draft, already had been disclosed through an official summary issued two weeks ago when the revision was completed.

Attached to the text, however, is the hitherto unpublished "annex" referred to in the covenant, which are named the thirty-one states, including the self-governing British dominions, which are to be the original members of the league of nations, and thirteen states to be invited to accede to the covenant. The original members are all the nations who declared war on Germany, and the new states of Czechoslovakia and Poland. Those invited to become members by acceding to the covenant are the three Scandinavian countries, the Netherlands, Switzerland, Spain and Persia, and the American republics of Argentina, Chile, Colombia, Paraguay, Salvador and Venezuela.

Mexico was not represented in the conference of neutrals at Paris, and, as was expected, does not appear in the list. Provision is made in the covenant, however, for admission to the league of any fully self-governing nations who can give the required guarantees, by a two-thirds vote of the representatives of the assembly.

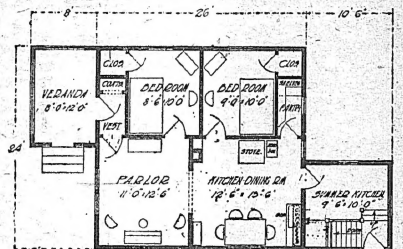

## Offers Canada Ypres Site

Paris. — The Belgian government offered Canada a site in the town of Ypres for a museum to contain souvenirs of the battles fought on the famous salient.

# Enemy Suffered Through Blockade

Berlin. — The imperial health ministry has issued a memorandum on the results of the blockade. It says from 1915 to 1918, as a result of undernourishment, 673,000 persons died in Germany and a further 150,000 died from influenza, owing to the loss of their power of resistance. The fall in the number of births during the war exceeded 4,000,000 for the empire and over 2,500,000 for Prussia. The memorandum calculates at 56,300,000,000 marks the damage inflicted by the hunger blockade, in which it includes such curious items as unborn people and the loss of wages due to reduced working capacity.

## A Moderate Priced Bungalow

GROUND FLOOR PLAN.

This is an especially attractive, moderate-priced bungalow, easily heated, where the kitchen, dining room and parlor can be used, when desired, as one room. There is good cupboard space, also sink and large draining board. The front vestibule with a place for coats, the summer kitchen having stairway to the cellar, are points of interest. It will be noted that the chimney is in the center of the house. Many people believe that a cleaner chimney and better draught are thus afforded.

## PIMPLES ON FACE CUTICURA HEALS

Caused Disfigurement. Itchy and  
Burning. Had Restless Nights.

"My face came out in little  
pimples that were sore, and I scratched  
them constantly, and then they turned into  
sores, causing much disfigurement.  
The skin was so itchy that I scratched  
it until I bled. The burning was  
terrible, and I had many restless  
nights."

"This trouble lasted about a year  
before I used Cuticura Soap and  
Ointment, and after using three cakes  
of Soap and two boxes of Ointment  
I was healed." (Signed) W. Byrnes,  
St. Louis, Mo., Nov. 23, 1918.

Make Cuticura Soap, Ointment  
and Talcum your daily toilet preparations.  
For free sample each of Cuticura Soap, Ointment  
and Talcum, write to: Cuticura, Editors,  
P.O. Box 103, St. Louis, Mo.

## Budapest Fears Anarchy

Work Begun at Munition and War  
Material Factories.

Budapest. — This city is going  
through a crisis worse than that of  
April 3. There is apprehension that  
there would be a violent swing to  
anarchy with the Socialists losing  
control to Bolsheviki leaders like  
Bela Kun and chiefs of the Red  
Guard. Looting, which hitherto has  
been held in check, or legalized as  
the "nationalization of property,"  
and the assassination of the old poli-  
tical leaders and the aristocrats are  
feared.

Reports are current that the Ru-  
manians and Czechs have received  
orders from the allies to march on  
Budapest. This is increasing the  
uneasiness here. It is felt, however,  
that the Rumanians are advancing  
merely to occupy the territory set  
aside for them by the allied note of  
March 20, which resulted in the  
resignation of Count Michael Kroylik,  
former premier.

The fact that the communists are  
unable to prevent the allies from  
occupying the districts involved is  
weakening the influence of Bela Kun  
and is causing violent hatred against  
the allies among the Hungarians.

London. — In obedience to orders  
from the soldiers and workmen's  
council work was begun at munition  
and war material factories in a  
Vienna dispatch to the Mail.

## Opposed to Feeding Russia

Archangel. — Lieut. Gen. Eugene  
Karlovich Miller, head of the Arch-  
angel government, told the Associated  
Press that he was absolutely op-  
posed to the plan of Dr. Friedhof  
Nansen for feeding Russia. Other  
officials on all hands express similar  
views.

General Miller said: "The propo-  
sition to feed our enemies comes at  
the moment of victory is near for us,  
and it is entirely outside the question  
to think that we should cease fight-  
ing in order to permit provisions to  
reach our enemies."

## Minard's Liniment Cures Dandruff

Disturbances in Hamburg.  
Spent. — A state of siege has  
been proclaimed in the important  
German port of Hamburg and the  
suburbs of Altona and Wandsbeck,  
according to advices received here  
from Hamburg. In consequence of  
the disturbances in Hamburg, the  
police have received orders to shoot  
persons carrying arms, plundering or  
fighting against the national police.

## Minard's Liniment Co., Limited.

Gentlemen, I had my leg badly  
hurt, the pain was very severe and  
a large swelling came above the  
knee. I expected it would be seri-  
ously rubbed it with MINARD'S  
LINIMENT, which stopped the pain  
and reduced the swelling very  
quickly. I cannot speak too highly  
of MINARD'S LINIMENT.

AMOS T. SMITH,  
Port Hood Island.

## New Oil Refinery at Regina

Regina, Sask. — T. N. Clayton  
of Minneapolis, assistant general man-  
ager of the Continental Oil company,  
stated definitely that the new refin-  
ery for western Canada would be  
erected in Regina and construction  
work would start in June.

## CHILDREN NEED HELP

Spanking doesn't cure bed-wetting.  
The trouble is due to weakness  
of the internal organs. My success-  
ful home treatment will be found  
helpful. Send no money, but  
write me today. My treatment  
is equally successful for adults,  
troubled with urinary difficulties.  
MRS. M. SUMMERS, Box 42 Windsor, Ont.

W. N. U. 1261

## Russian Troops Advance

Archangel. — By an advance  
of approximately 20 miles  
southward over the road parallel-  
ing the Murmansk railroad line,  
about 30 miles to the east Rus-  
sian troops operating with the  
allied Murmansk force have  
reached a point within easy  
striking distance of Lake On-  
ega, which is connected by a  
chain of lakes and canals with  
Petrograd.

## Special Prizes for Soldier Settlers

Ottawa. — The special prizes grant-  
ed by manufacturers of farm imple-  
ments, harness and other farm ac-  
cessories to soldiers settlers who ap-  
ply for the land and loan benefits  
of the soldier settlement act will be  
extended to any bona fide settler who  
is eligible to secure the benefits of  
the act by reason of his military ser-  
vice, but is unable to finance his own  
ventures.

## Catarrh and Dyspepsia

Undermined the System and the Nerve  
Gave Way—Hospital Treat-  
ment Failed—Read How  
Cure Was Effected

Preceville, Sask., April 29. — This  
letter will give you an idea of what  
you may expect from this combined  
treatment for catarrh. While Dr.  
Chase's Catarrh Powder affords re-  
lief from the stuffed-up air passages,  
headaches and annoying symptoms,  
of catarrh, the Nerve Food enriches the  
blood and builds up the system, so  
that the disease is entirely overcome.  
This is the ideal treatment for cat-  
tarrh and its ravages on the human  
system.

Mr. Ed. L. Jones, Preceville,  
Sask., writes: "I suffered for some  
time with catarrh and dyspepsia and  
my nervous system became quite  
run down. My food disagreed with  
me, and I was constantly bothered  
with indigestion. I also suffered from  
frequent headaches. I tried several  
doctors, and was in the hospital for  
a time, but could get no relief  
from any treatment until I began  
using Dr. Chase's Nerve Food and  
Catarrh Powder. This combined  
treatment has done wonders for me.  
I never have a headache now, and  
I am feeling first class. The Nerve  
Food has built up my system, and  
the Catarrh Powder, which I am still  
using, is helping my catarrh greatly.  
I intend to continue its use until  
completely cured."

I may also state that I have  
found Dr. Chase's Kidney-Liver Pills  
splendid for weak or lame back."

This is to certify that I am per-  
sonally acquainted with Mr. Ed.  
Jones, and believe his statement re-  
garding Dr. Chase's Medicines to be  
true and correct. — Mr. George  
D. Bates, M.D., Toronto.

Dr. Chase's Catarrh Powders, 25  
cents a box. Dr. Chase's Nerve Food,  
50 cents a box, all dealers or, Dr.  
Chase & Co., Toronto.  
Look for the portrait and signature  
of A. W. Chase, M.D., on the box  
you buy.

## Big Land Movement at Morris

Morris, Man. — A large number  
of American settlers are arriving here  
this spring and there has been quite  
a heavy land movement all the season.  
Weather conditions are slightly  
later than last season.

## They Cleanse While They Cure

The vegetable compounds of which  
Farnelle's Vegetable Pills are com-  
posed, mainly drawn from the roots  
of the earth, cleanse the stomach and  
intestines of deleterious matter and re-  
store the deranged organs to health-  
ful action. Hence they are the best  
remedy for indigestion available to-  
day. A trial of them will establish  
the truth of this assertion, and  
enable you to convince the ailing that  
nothing can be written of these pills.

## New System for Water Supply

Regina, Sask. — Moose Jaw is mov-  
ing to secure a new source and sys-  
tem for its water supply. At a pub-  
lic meeting there recently it seemed  
to be the general opinion of the mem-  
bers of the board of trade that the  
only solution for a permanent water  
supply was going to be the Saskat-  
chevan river, and that a system could  
be completed for \$400,000.

## Dust Causes Asthma. Even a little speck too small to see will lead to asthma which no woman can desire.

The walls of the breathing tubes con-  
tract and it seems as if the very life  
must pass. From this comes Dr. J.  
D. Kellogg's Asthma. Remedy bring-  
ing the user to perfect rest and health. It  
relieves the passages and normal  
breathing is firmly established again.  
Hundreds of testimonials received an-  
nually prove its effectiveness.

## Alberta to Borrow \$400,000

Edmonton, Alta. — The legislature  
has passed a bill authorizing the lieuten-  
ant-governor in council to obtain  
a loan of \$400,000, of which \$200,000  
is for telephones and the remain-  
der for general purposes named by  
the legislature.

We often hear of the sweet sim-  
plicity of childhood, yet every moth-  
er considers her baby cunning.

## CURE COWS CAKED BAGS

With  
EGYPTIAN LINIMENT  
For Sale by All Dealers  
Douglas & Company, Nanpan, Ont.

## Flatly Impossible

"Yes," said Simpkins, "I wanted to  
do my bit, of course, so I thought I'd  
raise some potatoes."  
"Well, I thought I would do it,"  
said Smith, "but when I looked up the  
way to do it, I found that potatoes  
have to be planted in hills, and our  
yard is perfectly flat."

Minard's Liniment for Sale Every-  
where.

## To Relieve Unemployment

Allies May Supply Raw Materials to  
German Factories

Paris. — The supreme economic  
council will meet to consider pro-  
posals to grant a limited supply of  
raw materials, notably cotton, to Ger-  
many, to enable the factories there to  
start work and to relieve the unem-  
ployment, which is said to be at the  
bottom of much of the disorder in  
Germany. The council, it is said, also  
will revise regulations for German  
exports required to pay for food im-  
ports and probably will discuss the  
new economic situation created by  
the slackening of the blockade regu-  
lations as applied to Germany's neutral  
neighbors.

## How's This?

We offer One Hundred Dollars Reward  
for any case of Catarrh that cannot be cured  
by Hall's Catarrh Cure.  
Hall's Catarrh Cure has been tested  
thousands of times, and has been known to  
cure Catarrh of the Bladder, Catarrh of the  
Nose, Catarrh of the Throat, Catarrh of the  
Lungs, Catarrh of the Stomach, Catarrh of the  
Intestines, Catarrh of the Liver, Catarrh of the  
Pancreas, Catarrh of the Gallbladder, Catarrh of  
the Bile Ducts, Catarrh of the Urinary Organs,  
and Catarrh of the Female Organs.

Dr. J. C. CHASE & CO., Toledo, O.  
Sold by all Druggists, Etc.

## Greeks Repatriated

Washington. — Repatriation of  
nearly 60,000 Greeks, who were re-  
moved from their homes during the war  
by the Bulgars, has been practi-  
cally completed. Reports received at  
American Red Cross headquarters  
here said that the Bulgars tried in  
every way possible to impede the re-  
patriation work and endeavored to  
conceal the fact that thousands of  
the Greeks had died during their im-  
prisonment from starvation and ex-  
posures.

Why should a woman have two  
cars and only one tongue when every-  
body knows she would rather talk  
five hours than listen five minutes.

seem in a hurry, no matter how much  
they have to do.

## Minard's Liniment Cures Neural- gia.

## Will Visit Prairie Provinces

Winning. — J. Bruce Walker, di-  
rector of immigration, announces that  
the prairie provinces will be visited  
during the coming summer by the  
most influential and largest party of  
United States editors who have ever  
come up from the south. It is said  
that there will be 300 in the party,  
and that every state in the union will  
be represented.

Everybody makes mistakes, but not  
everybody will admit it at the time  
he makes them.

It never improves musty opinions  
to air them.

On Every  
Path

You will find the ma-  
jority of people wear-  
ing clean, well-kept  
shoes

It is used by those who demand  
a good, economical shoe.

Staon shoe polish is longer  
than most shoe-polishes and is easy  
to put on in the first place.

## An Underground School

Returned Soldiers Get Instruction in  
Idaho Mine

Boise, Idaho. — Idaho boasts a  
school unique among its educational in-  
stitutions, a Smith-Highes vocation-  
al school, conducted 1400 feet beneath  
the surface of the earth. This school  
is at the Morning Mine, at Kellogg,  
Idaho, and the persons enrolled are  
in the main returned soldiers who  
are learning the elements of actual  
mining underground. The class is  
conducted by Frank Skeels, a mining  
engineer with long experience in  
practical mining. Instruction is given  
to given to classes above ground, but  
this is purely practical work in run-  
ning a drift, operating air compres-  
sors, mucking, and like tasks.

## Yes! Everybody Takes Cascarets

Only 10 cents! Harmless  
cathartic for sluggish  
liver and bowels

Feel bulky. Clutter up! Take Cas-  
carets to live your liver and clean  
the bowels and stop headaches, bil-  
iousness, bad breath, coated tongue,  
salivaceous, sour stomach and gases.  
Tonight take Cascarets and enjoy the  
nicest, gentlest liver and bowel clean-  
ing you have ever experienced. Wake  
up feeling grand—Everybody's doing  
it. Cascarets best laxative for children.  
They gladly take this pleasant candy  
cathartic because it never grips or  
sickens like other things.

## Prisoners Liberated and Armed

Copenhagen. — The present authori-  
ties at Munich, according to ad-  
vices received here, have liberated  
and armed Russian prisoners of war,  
who have been confined in the camp  
at Puchheim, on the outskirts of the  
city. A Russian guard is now pat-  
rolling the Munich railroad station.

## THE BEST MEDICINE FOR LITTLE ONES

There is no medicine for little  
ones to equal Baby's Own Tablets.  
The Tablets are a mild but thorough  
laxative; pleasant to take; do not  
grip and never fail to relieve the  
little one of constipation, indigestion,  
colic or any of the other minor ail-  
ments that plague them. Mrs. J. M.  
Monterose, Eel River Bridge, N.B.,  
writes: "I believe Baby's Own Tablets  
are the finest medicine for little  
ones I have ever used. From my own  
experience I would recommend every  
mother to keep a box on hand." The  
Tablets are sold by medicine dealers  
or by mail at 25 cents a box from  
The Dr. Williams' Medicine Co.,  
Brooklyn, Ont.

## Children in England attaining the age of understanding since August, 1914, have heaps of pleasant sur- prises in store for them, says a Lon- doner. One having been given a piece of red chalk, she ate the cake and left the icing "because she did not know what it was."

## Is Your Nose Plugged? Have You Catarrh?

If Subject to Colds, Here Is  
Real Good Advice

Don't load your stomach with  
cough syrups. Send healing medi-  
cation through the nostrils—send it  
into the passages that are subject  
to colds and catarrh. Easy to do this  
with Catarrhaze, which cures a  
cold in ten minutes. Even the lung-  
lungs goes the healing vapor of  
Catarrhaze—all through the bronch-  
ial tubes, nostrils and air passages  
—everywhere. A trace of disease re-  
mains with Catarrhaze follow.  
You'll not have colds, nor will you  
suffer from influenza, bronchitis, or  
throat trouble if Catarrhaze is used  
get it today, but beware of dan-  
gerous substitutes meant to deceive  
you for genuine Catarrhaze. Large  
size, two months' treatment, costs  
\$1.00; small size, 50c; sample size,  
25c; all dealers or The Catarrhaze Co.,  
Kingston, Canada.

## Survey Catarrh Location

Calgary, Alta. — A. T. Cooper, from  
Fair, Oregon, has arrived at Peace  
River to survey the country with the  
view of locating a cattle grazing lo-  
cation. Mr. Cooper has a herd of  
Herefords, which he purposes moving  
into the north Alberta country. He  
will probably go north down the  
Peace to the Battle River district  
where there is lots of open grazing  
country and a plentiful supply of hay  
available to be put up each season for  
winter feed.

## "Give your commands more clearly"

said the colonel to the young  
lieutenant.

"Yes, sir!"

"The other day one of your officers  
cleared his throat and the entire com-  
pany about faced."—Detroit Free  
Press.

## Brazil's great wealth in coffee is due to a monk who planted two seeds in a Rio de Janeiro monastery gar- den in 1754.

## Worthy Your Attention!

At the annual meeting of the Davidson, the managing Director announced  
that the Directors had decided to place Davidson on a producing basis of mag-  
nitude.  
An up-to-the-minute mill is to be installed on the property with a  
capacity of 150 tons, and judging from the estimate of ore already blocked  
out and the new ore body recently uncovered on the 500 foot level—  
the mine should become one of the foremost producers in the  
Northern Canada.  
Davidson is one of the very few substantial issues on  
the market today selling below par. Davidson offers  
a lucrative opportunity for a speculative return and  
the best intrinsic is an out-and-out investment of the  
first order.

IT WILL PAY YOU TO WATCH

## Chinook Breezes

Keep in mind May 16th, and watch for advertisements.

Mostly all the wheat will be in this week in this district

Since the rain this week land has taken a running jump of five dollars an acre around Chinook

Mr. T. O. Stephenson and family have moved from Chinook out to their farm near Excel.

Andy Simon returned to Chinook last week and has commenced farming operations on his place.

White—At Chinook, Thursday April 24th, to Mr. and Mrs. Geo. White, a daughter.

Station Agent Strong, Youngstown, was a Chinook visitor last Saturday.

Mr. and Mrs. R. S. Woodruff are Calgary visitors for two or three days this week.

That rain during this week has put the "op" in optimism in some of the doubting Thomases around here.

The regular monthly meeting of the Women's Institute will be held on Wednesday afternoon, May 7th, at the home of Mrs. Lee.

Lieut. and Mrs. Thomas, of London, England, are visiting his sister, Mrs. Ralph Whelan, for the summer. Lieut. Thomas was connected with the Imperial air force.

Mr. Woodruff has installed a motor-oil tank (an invention of his own) beside the gasoline tank by the sidewalk in front of his hardware store, so that now motorist can conveniently get their oil at the same time as the gasoline.

Falling in line with many other papers, we are providing a U.F.A. corner in the Advance, to be devoted entirely to U.F.A. work and news. Being crowded for space, our "U.F.A. Corner" will commence next week.

## VILLAGE OF CHINOOK

### NOTICE

By-Law No. 7, as amended by the Local Council

- All buildings in the Village of Chinook in which stoves and furnaces are used, shall have brick chimneys erected thereon.
- This by-law is applicable to all such buildings already erected, and to such as shall in future be erected.
- Any person or persons found guilty of an infraction of this by-law shall be liable to the penalties provided for in By-Law No. 8.

As amended April 10th, 1919.

J. W. YAKE, Sec.-Treas.
